

Motorola ATRIX™ Fact Sheet

Motorola ATRIX: The World’s Most Powerful Smartphone and the Future of Mobile Computing

Motorola’s ATRIX launches a new era of mobile computing. A phone that acts like a computer, the Motorola ATRIX delivers both the power and performance of mobile computing, all while fitting comfortably in your pocket. With the new webtop application, a web based desktop, Motorola ATRIX can morph personalities when it is connected to different accessories. Connect Motorola ATRIX to an HDMI compatible monitor, HD TV or Motorola’s Laptop Dock or HD Multimedia Dock accessories, and with the webtop application, you now have the freedom to surf the web with a full Mozilla Firefox® browser and to access all of your files, emails, photos and movies on a larger screen in the office, on the road or at home.

Your Digital Hub

Motorola ATRIX is the only smartphone that allows you to carry the power and performance of mobile computing inside your pocket. Motorola ATRIX is built around a dual core processor with each core running at 1 GHz, delivering up to two GHz of processing power and 1 GB of RAM for the horsepower you need to keep pace with all aspects of your life. Web pages open twice as fast as non-dual-core smartphones and Adobe® Flash® Player makes it possible to view a full range of online animations and video. Motorola ATRIX’s unparalleled versatility and connectivity equips you to handle whatever life throws at you, wherever you are. You can even make and receive calls as you’re working within the webtop application. Live your life powerfully with Motorola ATRIX.

Empower Your Fun

Enjoy sharper, smoother entertainment at home or on the go with Motorola ATRIX. Motorola ATRIX offers up to 48GB of memory – 16GB on board and an optional 32GB microSD card – giving you space to store thousands of songs, photos, and files to keep you entertained wherever your life takes you. The dual-core processor lets Motorola ATRIX render graphics and games faster, and everything you see on Motorola ATRIX screen will be in crisp, rich 24-bit color with the world’s first qHD (Quarter High Definition) smartphone display.

Balance with Ease

Motorola ATRIX is mobile the way you want it to be, for both work and play. With MOTOBLUR, you can simultaneously stay updated with work and your social life. Dock your Motorola ATRIX at home or in the office to open, view, edit and send presentations, spreadsheets, and documents using cloud based web apps through the full Mozilla Firefox browser in webtop. At the end of the day you’ll know all the information stored in your smartphone is safe, thanks to the fingerprint reader with its unique fingerprint recognition technology.
